

## Mission

Founded in 2016, SIHMUN is a destination for students from all around the world to achieve international co-operation in solving global problems of an economic, social, or cultural character focusing on the increasing Hospitality & Tourism industry. We took the initiative to promote respect for fundamental freedom for all without distinction as to race or gender and address the issues and opportunities to conserve the environment. With sustainable tourism we support the local communities at every destination and display openness to create lasting relationships with everyone around us. We engage to create knowledge and solutions where passion and purpose come together.

## Vision

To build a thriving community of global and young collaborators, who's mission is to create worldwide awareness of the issues and opportunities of the Hospitality & Tourism industry and who are engaged in leading the change of tomorrow for all future generations.
